

Uniti Core

Your Entire Music Collection in One Powerful Hub

Product EANs: 5060332107377 (UK) - 5060332107360 (EU)

Uniti Core is the ultimate music manager, able to create bit-perfect copies of your favourite CDs and stream them and the rest of your digital music collection to music players around your home. This sleek music archivist and server can also act as a superb music source.

Key Features

House your entire CD collection in one, beautifully designed compact package

Rip your CDs in flawless, perfect quality

Automatically organises your music allowing you to search by title, artist, genre, track via the Naim app

Designed to sit at the heart of your home; easily access your music from any player in your house - choose the same song in beat-perfect sync or play different music in different rooms

Superlative build quality and beautiful design; made in the UK and built to last

Transforms your personal CD collection into a high-quality music library you can easily stream around the home

Flexible, future-proofed design; expandable to house your collection now, and in the future

Reviews

“Among a constellation of competitors, the Naim Uniti Nova is a shining star”

Robb Report

“The Uniti Nova has the drive and power to rock your world”

the absolute sound

“As complete and convincing an argument for one-box convenience as you’ll hear”

WHAT HI-FI?
