

Cinema Piano VMT HF PA PS WS

The Cinema Piano VMT panel is the standard absorber of the Cinema family, being the least thick, 60mm thickness, results in a good absorption capacity.

With the combination of the 3 Cinema panels you can create several 3D surfaces, with endless creativity design options. Furthermore, these panels are mostly made of recycled materials, in agreement with Vicoustic's sustainability compromise. The Cinema line of products is available in 6 different finishes and, since it was developed with VMT technology, the panels can be customized.

Compatible with VicFix J profile fixation system, the panels can also be installed in the corners acting as a broadband Bass Trap, with enhanced performance in the low region.

Acoustic Performance

Technical Information

Dimensions: 595×595×60mm / 23.4"×23.4"×2.4" (L×H×W, per panel)

Weight: 4.05kg / 8.93lb (per panel)

Raw Materials: VicPET Wool, ViCycle, MDF and Lacquered Steel

Acoustic Properties: Broadband Absorption

NRC: 0.95

Installation/Accessories: VicFix Mini (included), VicFix J Profile, VicFix Corner, VicFix Suspension profile 1190mm / 595mm (for ceiling installation).

Packaging Information

Units per Box: 2 units/box; **Box Dimensions:** 665×675×195mm / 26.2"×26.6"×7.7";

Box Gross Weight: 3.5kg / 7.7lb
