The ultimate radio solution

The Tuner Box S3 DAB+ is our new addition in the S3 line which brings FM, DAB/DAB+ as well as internet radio with worldwide stations & podcasts into your current HiFi system. Control it either directly on the front panel or with the included remote control. Save your favourite radio stations and quick access them on the remote. You can also optimise the sound with a built-in equalizer function with either ready to use presets, or a 5-band eq which gives you even more access.

Versatile output options

Our new Tuner Box S3 DAB+ offers you many output options. Connect it to your amplifier with RCA, or use an external DAC with the digital optical or coaxial outputs. If you want to enjoy your favourite radio station on your own, you can use the built-in headphone output. Just plug your headphones into the 6,3 mm jack output and press play.

The Tuner Box S3 DAB+ is carefully made in Europe and available in silver or black aluminium housing.
